(54) Title: BUCKLE PHONE

(57) Abstract: A buckle-phone coupled with a belt. The buckle-phone includes a mobile phone bent in the length direction of the belt, a mobile phone support bent to correspond to the mobile phone and having a mobile phone accommodating section for supporting the mobile phone, an earphone assembly connected to the mobile phone, and including earphones, a microphone, and an earphone wire, the earphones, and the microphone, an earphone accommodating section provided at the mobile phone support and accommodating the earphone assembly, and a buckle coupled with the other side of the belt so as to adjust the belt length to correspond to the user's waist size. The buckle-phone serves as a buckle and a mobile phone, easily accommodates the earphone assembly, and selectively adjusts the length of the belt to correspond to the user's waist size.
